KS3 Design and Technology
Assessment and Progression Grid

	Research A01	Design A02	Development A03	Making A04
Excelling	Can demonstrate independent investigations and in-depth understanding of artists/designers, techniques and material/medias	Can effectively apply a wide range of creative and technical skills, experimentation and innovation to develop and refine work	Can independently record and use experiments to develop a design idea into a detailed FINAL IDEA, with a variety of methods; 2D Design and 3D Modelling to scale	Demonstrates advanced use of visual language, technique, media and contexts to manufacture their idea
Secure	Can skilfully demonstrate investigations and in-depth understanding of artists/designers, techniques and material/medias	Can adequately apply a wide range of creative and technical skills, experimentation and innovation to develop and refine work	Can record and use experiments to develop a design idea into a detailed FINAL IDEA, with a variety of methods; 2D Design and 3D Modelling	Demonstrates relevant and good use of visual language, technique, media and contexts to manufacture their idea
Developing	Can demonstrate sound investigations and understanding of artists/designers, techniques and material/medias	Can apply a range of creative and technical skills and some experimentation and innovation to develop and refine work	Can record and use clear observations to develop a design idea into a detailed FINAL IDEA	Demonstrates good use of visual language, technique, media and contexts to manufacture their idea
Emerging	Demonstrates limited investigations and understanding of artists/designers, techniques and material/medias	Can apply basic creative and technical skills with limited experimentation and innovation	Can record and use simple observations develop a chosen idea	Demonstrates basic use of visual language, technique, media or contexts to manufacture their idea
