

Year 11 Chemistry GCSE Homework
January 2025 to May 2025

Your Chemistry teacher will set weekly homework tasks from one of the following options:

- Seneca Learning assignment
- 10 minute nugget and questions
- Core knowledge quiz
- Exam questions
- GCSE Pod assignment

The homework set will be bespoke to that particular group relating to intervention areas identified from the trial exams or to consolidate learning in class. This approach is used to allow staff to adapt to the needs of our students.
